## PETITION

Case Number: **C8-2010-0047.0A**  
**1808 Vance Circle**

Date: 2/22/2010

|                                                                         |            |
|-------------------------------------------------------------------------|------------|
| Total Square Footage Owned by Petitioners Within 200' of Subject Tract: | 151,232.10 |
| Total Square Footage of Buffer:                                         | 309905.21  |
| Percentage of Square Footage Owned by Petitioners Within Buffer:        | 48.80%     |

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

| #                         | TCAD ID    | Address        | Owner                                                                                            | Signature | Petition Area | Percent |

## PETITION

Case Number: **C14-2010-0204**  
**6716 E RIVERSIDE DRIVE**

Date: 6/8/2011

|                                                                         |            |
|-------------------------------------------------------------------------|------------|
| Total Square Footage Owned by Petitioners Within 200' of Subject Tract: | 719,482.48 |
| Total Square Footage of Buffer:                                         | 921339.07  |
| Percentage of Square Footage Owned by Petitioners Within Buffer:        | 20.58%     |

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 312130.789  
Percentage of Square Footage Owned by Petitioners Within Buffer: 11.62%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Case Number: **C14-2011-0054**  
**8004 TWO COVES DR**

Date: 11/21/2011

|                                                                  |           |
|------------------------------------------------------------------|-----------|
| Total Square Footage of Buffer:                                  | 552966.85 |
| Percentage of Square Footage Owned by Petitioners Within Buffer: | 50.67%    |

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Case Number: **C14-2010-0079**  
**2315 E. 8TH ST**

Date: 10/24/2011

|                                                                  |           |
|------------------------------------------------------------------|-----------|
| Total Square Footage of Buffer:                                  | 196337.54 |
| Percentage of Square Footage Owned by Petitioners Within Buffer: | 0.27%     |

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Case Number: **C14-2011-0134**

Date: 1/31/2013

|                                                                  |           |
|------------------------------------------------------------------|-----------|
| Total Square Footage of Buffer:                                  | 288065.05 |
| Percentage of Square Footage Owned by Petitioners Within Buffer: | 7.35%     |

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

| Total Square Footage of Buffer:                                  | 745976.21 |
| Percentage of Square Footage Owned by Petitioners Within Buffer: | 8.16%     |

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Case Number: **C14-2011-0032**

Date: 9/25/2012

|                                                                  |           |
|------------------------------------------------------------------|-----------|
| Total Square Footage of Buffer:                                  | 483832.76 |
| Percentage of Square Footage Owned by Petitioners Within Buffer: | 37.35%    |

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Case Number: **C14-2011-0032**

Date: 9/25/2012

|                                                                  |           |
|------------------------------------------------------------------|-----------|
| Total Square Footage of Buffer:                                  | 483832.76 |
| Percentage of Square Footage Owned by Petitioners Within Buffer: | 20.05%    |

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Case Number: **C14-2011-0032**

Date: 9/25/2012

|                                                                  |           |
|------------------------------------------------------------------|-----------|
| Total Square Footage of Buffer:                                  | 483832.76 |
| Percentage of Square Footage Owned by Petitioners Within Buffer: | 46.48%    |

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

| Percentage of Square Footage Owned by Petitioners Within Buffer: | 2.68%     |

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Case Number: **C14-2012-0100**

Date: 6/10/2013

|                                                                  |           |
|------------------------------------------------------------------|-----------|
| Total Square Footage of Buffer:                                  | 345155.20 |
| Percentage of Square Footage Owned by Petitioners Within Buffer: | 0.00%     |

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Case Number: **C14-2012-0109**

Date: 10/22/2012

|                                                                  |           |
|------------------------------------------------------------------|-----------|
| Total Square Footage of Buffer:                                  | 480517.83 |
| Percentage of Square Footage Owned by Petitioners Within Buffer: | 68.74%    |

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

|                                                                  |           |
|------------------------------------------------------------------|-----------|
| Total Square Footage of Buffer:                                  | 380861.65 |
| Percentage of Square Footage Owned by Petitioners Within Buffer: | 61.69%    |

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Case Number: **C14-2012-0130**

Date: 2/14/2013

|                                                                  |           |
|------------------------------------------------------------------|-----------|
| Total Square Footage of Buffer:                                  | 287673.56 |
| Percentage of Square Footage Owned by Petitioners Within Buffer: | 9.54%     |

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Case Number: **C14-2012-0140**

Date: 2/21/2013

|                                                                  |           |
|------------------------------------------------------------------|-----------|
| Total Square Footage of Buffer:                                  | 458124.95 |
| Percentage of Square Footage Owned by Petitioners Within Buffer: | 34.48%    |

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Case Number: **C14-2013-0031**

Date: 8/22/2013

|                                                                  |           |
|------------------------------------------------------------------|-----------|
| Total Square Footage of Buffer:                                  | 360244.62 |
| Percentage of Square Footage Owned by Petitioners Within Buffer: | 17.59%    |

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Case Number: **C14-2013-0040**

Date: 8/27/2013

|                                                                  |           |
|------------------------------------------------------------------|-----------|
| Total Square Footage of Buffer:                                  | 566645.53 |
| Percentage of Square Footage Owned by Petitioners Within Buffer: | 15.47%    |

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Case Number: **C14-2013-0060**

Date: 10/23/2013

|                                                                  |           |
|------------------------------------------------------------------|-----------|
| Total Square Footage of Buffer:                                  | 362959.98 |
| Percentage of Square Footage Owned by Petitioners Within Buffer: | 24.81%    |

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

|                                                                  |           |
|------------------------------------------------------------------|-----------|
| Total Square Footage of Buffer:                                  | 253682.58 |
| Percentage of Square Footage Owned by Petitioners Within Buffer: | 43.63%    |

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Case Number: **C14-2013-0098**

Date: 9/6/2013

|                                                                  |           |
|------------------------------------------------------------------|-----------|
| Total Square Footage of Buffer:                                  | 269884.69 |
| Percentage of Square Footage Owned by Petitioners Within Buffer: | 51.24%    |

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

|------------------------------------------------------------------|-----------|
| Total Square Footage of Buffer:                                  | 534768.40 |
| Percentage of Square Footage Owned by Petitioners Within Buffer: | 37.84%    |

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

| #  | TCAD ID   | Address                           | Owner                                         | Signature | Petition Area | Percent |

Case Number:

**PETITION****C14-2013-0107**

Date: 11/6/2024

Total Square Footage of Buffer: 529875.1646

Percentage of Square Footage Owned by Petitioners Within Buffer: 4.57%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Case Number:

**C14-2014-0036****PETITION**

Date: 11/6/2024

Total Square Footage of Buffer: 395230.2068

Percentage of Square Footage Owned by Petitioners Within Buffer: 24.18%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Case Number:

**PETITION****C14-2014-0123**

Date: 11/6/2024

Total Square Footage of Buffer: 516916.341

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 390107.7758  
Percentage of Square Footage Owned by Petitioners Within Buffer: 8.75%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 1739513.504  
Percentage of Square Footage Owned by Petitioners Within Buffer: 10.38%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Total Square Footage of Buffer: 615153.2152  
Percentage of Square Footage Owned by Petitioners Within Buffer: 4.53%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 470883.2303  
Percentage of Square Footage Owned by Petitioners Within Buffer: 7.89%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 287835.0097  
Percentage of Square Footage Owned by Petitioners Within Buffer: 30.76%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 447744.7833  
Percentage of Square Footage Owned by Petitioners Within Buffer: 22.62%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 201192.0498  
Percentage of Square Footage Owned by Petitioners Within Buffer: 5.90%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Date: 11/6/2024

Total Square Footage of Buffer: 1193418.308

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Date: 11/6/2024  
Total Square Footage of Buffer: 1518806.772  
Percentage of Square Footage Owned by Petitioners Within Buffer: 36.76%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Case Number:

**PETITION****C14-2016-0023.SH**

Date: 11/6/2024

Total Square Footage of Buffer: 628125.5117

Percentage of Square Footage Owned by Petitioners Within Buffer: 58.82%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Case Number:

**C14-2016-0025****PETITION**

Date: 11/6/2024

Total Square Footage of Buffer: 794776.3816

Percentage of Square Footage Owned by Petitioners Within Buffer: 23.37%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024

Total Square Footage of Buffer: 412328.8843

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024

Total Square Footage of Buffer: 462946.5002

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 640811.7481  
Percentage of Square Footage Owned by Petitioners Within Buffer: 37.88%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 219055.5379  
Percentage of Square Footage Owned by Petitioners Within Buffer: 38.47%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 234523.2619  
Percentage of Square Footage Owned by Petitioners Within Buffer: 7.51%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

**C14-2017-0092 - Area 1**

Date: 11/6/2024

Total Square Footage of Buffer: 18245.60524

Percentage of Square Footage Owned by Petitioners Within Buffer: 100.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

**C14-2017-0092 - Area 4**

Date: 11/6/2024

Total Square Footage of Buffer: 37974.42525

Percentage of Square Footage Owned by Petitioners Within Buffer: 100.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 263906.8996  
Percentage of Square Footage Owned by Petitioners Within Buffer: 47.87%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Case Number:

**C14-2018-0096****PETITION**

Date: 11/6/2024

Total Square Footage of Buffer: 282475.9089

Percentage of Square Footage Owned by Petitioners Within Buffer: 40.65%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Date: 11/6/2024  
Total Square Footage of Buffer: 213307.4275  
Percentage of Square Footage Owned by Petitioners Within Buffer: 20.74%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 198322.9698  
Percentage of Square Footage Owned by Petitioners Within Buffer: 28.11%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 947849.2544  
Percentage of Square Footage Owned by Petitioners Within Buffer: 15.99%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

| TCAD ID    | Address                | Owner                                          | Signature | Petition Area | Percent |

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 843708.474  
Percentage of Square Footage Owned by Petitioners Within Buffer: 16.62%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

| TCAD ID    | Address                | Owner                                          | Signature | Petition Area | Percent |

## PETITION

Date: 11/6/2024

Total Square Footage of Buffer: 797490.5956

Percentage of Square Footage Owned by Petitioners Within Buffer: 8.54%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

| TCAD ID    | Address                | Owner                                          | Signature | Petition Area | Percent |

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 821458.9807  
Percentage of Square Footage Owned by Petitioners Within Buffer: 9.20%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

| TCAD ID    | Address                | Owner                                          | Signature | Petition Area | Percent |

Case Number:

**PETITION****C14H-2018-0084**

Date: 11/6/2024

Total Square Footage of Buffer: 243380.592

Percentage of Square Footage Owned by Petitioners Within Buffer: 24.92%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Case Number:

**PETITION****C14-2018-0093**

Date: 11/6/2024

Total Square Footage of Buffer: 263906.8996

Percentage of Square Footage Owned by Petitioners Within Buffer: 47.87%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024

Total Square Footage of Buffer: 215230.9613

Percentage of Square Footage Owned by Petitioners Within Buffer: 20.55%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024

Total Square Footage of Buffer: 210907.9601

Percentage of Square Footage Owned by Petitioners Within Buffer: 20.45%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 263138.453  
Percentage of Square Footage Owned by Petitioners Within Buffer: 16.34%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 843708.474  
Percentage of Square Footage Owned by Petitioners Within Buffer: 16.62%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

| TCAD ID    | Address                | Owner                                          | Signature | Petition Area | Percent |

## PETITION

Date: 11/6/2024

Total Square Footage of Buffer: 797490.5956

Percentage of Square Footage Owned by Petitioners Within Buffer: 8.54%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 821458.9807  
Percentage of Square Footage Owned by Petitioners Within Buffer: 9.20%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

**PETITION****C14H-2018-0084**

Date: 11/6/2024

Total Square Footage of Buffer: 243380.592

Percentage of Square Footage Owned by Petitioners Within Buffer: 24.92%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024

Total Square Footage of Buffer: 526689.9478

Percentage of Square Footage Owned by Petitioners Within Buffer: 36.21%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024

Total Square Footage of Buffer: 336910.5293

Percentage of Square Footage Owned by Petitioners Within Buffer: 63.47%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

**C14-2019-0098****PETITION**

Date: 11/6/2024

Total Square Footage of Buffer: 597840.027

Percentage of Square Footage Owned by Petitioners Within Buffer: 15.50%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Date: 11/6/2024

Total Square Footage of Buffer: 1112093.695

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

| TCAD ID    | Address                 | Owner                                                  | Signature | Petition Area | Percent |

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 607876.2104  
Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

| TCAD ID    | Address                         | Owner                                | Signature | Petition Area | Percent |

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 950357.2724  
Percentage of Square Footage Owned by Petitioners Within Buffer: 1.91%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Case Number:

**PETITION****C14-2020-0031.SH**

Date: 11/6/2024

Total Square Footage of Buffer: 412100.847

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 466922.4895  
Percentage of Square Footage Owned by Petitioners Within Buffer: 17.15%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

**PETITION****C14-2020-0067**

Date: 11/6/2024

Total Square Footage of Buffer: 325562.2239

Percentage of Square Footage Owned by Petitioners Within Buffer: 24.83%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 703703.0142  
Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024

Total Square Footage of Buffer: 234898.1443

Percentage of Square Footage Owned by Petitioners Within Buffer: 10.62%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

**C14-2020-0146**

Date: 11/6/2024

Total Square Footage of Buffer: 541631.7163

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.47%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 651049.9857  
Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 607876.2104  
Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

| TCAD ID    | Address                         | Owner                                | Signature | Petition Area | Percent |

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 950357.2724  
Percentage of Square Footage Owned by Petitioners Within Buffer: 1.91%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 365696.8705  
Percentage of Square Footage Owned by Petitioners Within Buffer: 27.23%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

**PETITION****C14-2020-0039**

Date: 11/6/2024

Total Square Footage of Buffer: 311753.7033

Percentage of Square Footage Owned by Petitioners Within Buffer: 36.85%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024

Total Square Footage of Buffer: 213353.7412

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Date: 11/6/2024  
Total Square Footage of Buffer: 186326.1658  
Percentage of Square Footage Owned by Petitioners Within Buffer: 8.38%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

**PETITION****C14-2020-0102**

Date: 11/6/2024

Total Square Footage of Buffer: 712605.5514

Percentage of Square Footage Owned by Petitioners Within Buffer: 53.51%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Case Number:

**PETITION****C14-2020-0143**

Date: 11/6/2024

Total Square Footage of Buffer: 746971.8786

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Date: 11/6/2024

Total Square Footage of Buffer: 541631.7163

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.47%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Case Number:

**PETITION****C14-2020-0151**

Date: 11/6/2024

Total Square Footage of Buffer: 651049.9857

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

| TCAD ID    | Address                             | Owner                             | Signature | Petition Area | Percent |

Case Number:

**PETITION****Holy Cross/Washington Historic District**

Date: 11/6/2024

Total Square Footage of Buffer: 528674.1086

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

| TCAD ID    | Address                       | Owner                                                   | Signature | Petition Area | Percent |

**PETITION****C14-2021-0007**

Date: 11/7/2024

Total Square Footage of Buffer: 177975.9877

Percentage of Square Footage Owned by Petitioners Within Buffer: 63.50%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Case Number:

**PETITION****C14-2021-0015**

Date: 11/7/2024

Total Square Footage of Buffer: 603903.1718

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

**C14-2021-0017**

Date: 11/7/2024

Total Square Footage of Buffer: 318853.8102

Percentage of Square Footage Owned by Petitioners Within Buffer: 20.91%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 1512000.999  
Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

| TCAD ID    | Address                      | Owner                                                            | Signature | Petition Area | Percent |

Case Number:

**PETITION****C14-2021-0033**

Date: 11/6/2024

Total Square Footage of Buffer: 1512000.999

Percentage of Square Footage Owned by Petitioners Within Buffer: 2.32%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

| TCAD ID    | Address                              | Owner                                                            | Signature | Petition Area | Percent |

Case Number:

**PETITION****C14-2021-0033**

Date: 11/6/2024

Total Square Footage of Buffer: 1959834.635

Percentage of Square Footage Owned by Petitioners Within Buffer: 9.67%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 177278.1052  
Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Total Square Footage of Buffer: 174189.3386

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Case Number:

**PETITION****C14-2021-0037****1202 Olander**

Date: 11/6/2024

Total Square Footage of Buffer: 158153.6009

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 206905.9811  
Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Case Number:

**PETITION****C14-2021-0037**

Date: 11/6/2024

Total Square Footage of Buffer: 1908781.032

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

| TCAD ID    | Address                          | Owner                                  | Signature | Petition Area | Percent |

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 1362260.012  
Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

| TCAD ID    | Address                       | Owner                              | Signature | Petition Area | Percent |

## PETITION

Date: 11/6/2024  
Total Square Footage of Buffer: 1362260.012  
Percentage of Square Footage Owned by Petitioners Within Buffer: 8.32%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

| TCAD ID    | Address                              | Owner                                              | Signature | Petition Area | Percent |

Case Number:

**PETITION****C14-2021-0037**

Date: 11/6/2024

Total Square Footage of Buffer: 1908781.032

Percentage of Square Footage Owned by Petitioners Within Buffer: 10.60%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Date: 11/7/2024  
Total Square Footage of Buffer: 5047.883517  
Percentage of Square Footage Owned by Petitioners Within Buffer: 100.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Date:

11/7/2024

Total Square Footage of Buffer:

6263.244361

Percentage of Square Footage Owned by Petitioners Within Buffer:

100.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Date: 11/7/2024

Total Square Footage of Buffer: 368112.1803

Percentage of Square Footage Owned by Petitioners Within Buffer: 22.08%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

**C14-2021-0081**

Date: 11/7/2024

Total Square Footage of Buffer: 324295.1121

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Case Number:

**PETITION****C14-2021-0123**

Date: 11/7/2024

Total Square Footage of Buffer: 768909.1352

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Case Number:

**C14-2021-0123****PETITION**

Date: 11/7/2024

Total Square Footage of Buffer: 3209479.722

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/7/2024

Total Square Footage of Buffer: 288138.5699

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Case Number:

**PETITION****C14-2021-0139**

Date: 11/7/2024

Total Square Footage of Buffer: 290368.4963

Percentage of Square Footage Owned by Petitioners Within Buffer: 22.31%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

**C14H-2021-0164**

Date:

11/7/2024

Total Square Footage of Buffer:

13331.3888

Percentage of Square Footage Owned by Petitioners Within Buffer:

100.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Case Number:

**PETITION****C14-2022-0010**

Date: 11/7/2024

Total Square Footage of Buffer: 193754.2845

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Case Number:

**PETITION****C14-2022-0018.SH**

Date: 11/7/2024

Total Square Footage of Buffer: 275116.6087

Percentage of Square Footage Owned by Petitioners Within Buffer: 8.65%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Total Square Footage of Buffer: 334795.5089

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/7/2024

Total Square Footage of Buffer: 457901.4959

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/7/2024  
Total Square Footage of Buffer: 755892.8462  
Percentage of Square Footage Owned by Petitioners Within Buffer: 22.56%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Total Square Footage of Buffer: 371056.8511  
Percentage of Square Footage Owned by Petitioners Within Buffer: 2.07%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/7/2024

Total Square Footage of Buffer: 340550.8804

Percentage of Square Footage Owned by Petitioners Within Buffer: 28.41%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/7/2024  
Total Square Footage of Buffer: 209244.46  
Percentage of Square Footage Owned by Petitioners Within Buffer: 33.45%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/7/2024

Total Square Footage of Buffer: 269651.9742

Percentage of Square Footage Owned by Petitioners Within Buffer: 9.73%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

**C14-2023-0126**

Date: 11/7/2024

Total Square Footage of Buffer: 588102.4224

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/7/2024  
Total Square Footage of Buffer: 219079.1401  
Percentage of Square Footage Owned by Petitioners Within Buffer: 14.83%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Date: 11/7/2024

Total Square Footage of Buffer: 325907.9697

Percentage of Square Footage Owned by Petitioners Within Buffer: 97.95%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Case Number:

**C14-2024-0051****PETITION**

Date: 11/7/2024

Total Square Footage of Buffer: 547261.1304

Percentage of Square Footage Owned by Petitioners Within Buffer: 26.08%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

| TCAD ID    | Address                             | Owner                                          | Signature | Petition Area | Percent |

Total Square Footage of Buffer: 236477.5209

Percentage of Square Footage Owned by Petitioners Within Buffer: 33.90%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/7/2024

Total Square Footage of Buffer: 445013.8196

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Case Number:

**PETITION****C14-2024-0104**

Date: 11/7/2024

Total Square Footage of Buffer: 383964.4944

Percentage of Square Footage Owned by Petitioners Within Buffer: 26.64%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

Case Number:

**PETITION****C14-2024-0104**

Date: 11/7/2024

Total Square Footage of Buffer: 383964.4944

Percentage of Square Footage Owned by Petitioners Within Buffer: 20.77%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/7/2024  
Total Square Footage of Buffer: 302754.4055  
Percentage of Square Footage Owned by Petitioners Within Buffer: 44.10%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

## PETITION

Date: 11/7/2024  
Total Square Footage of Buffer: 554046.8018  
Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.
